

CHARDONNAY

SONOMA COUNTY

The various lots were fermented in a combination of stainless steel tanks and neutral French oak barrels, then racked to all older French oak barrels and left sur lies until the completion of the malolactic fermentation, and finally brought back to stainless for the complete blend and bottling.

Fresh tropical fruit salad, lime and a hint of creamy vanilla are accompanied by a very refreshing acidity. This would make a great party wine, and would also pair well with roast chicken and salads.
