

## Domaine Michel Caillot Bourgogne Blanc 'Les Herbeux'

**This plot is right in the middle of the town of Meursault, and would have been named "Meursault" as well if it weren't for that fact that vegetables were more profitable to grow than grape vines back in the day!**

*The Caillot family has a deep history in the region; Michel is the nephew of famed Pierre Morey. Caillot's style emphasizes integrated farming, with winemaking tuned for long-aged wines - long slow fermentations in a cold cellar and minimal handling lead to wines that are typically released 3-5 years later than their peers. This is a fantastic opportunity to taste how white Burgundy can evolve when aged under perfect conditions at the winemaker's cellar!*
