Robert Parker

WINE ADVOCATE

Feuerheerd's 10 Year Tawny Port

"The 10 Years Old Tawny Port comes in at 104 grams per liter of residual sugar. This is the new release, bottled in 2015. This adds a layer (or two) of concentration. With a bitter chocolate and molasses finish, it is a well-balanced 10 Year Tawny with some pop and intensity, plus that good concentration of flavor that you look for. It is a very nice value."
