

HAUT - GUIRAUD

VIGNOBLES BONNET & FILS

CHÂTEAU Castaing

Red Wine

A.O.C. Côtes-de-Bourg

Vintage : 2018

Production: 80 000 bottles of 75 cl

Grape Varieties: Merlot 80%, Cabernet Sauvignon 20%

Quality :

Most of our work take place in the vineyard, because the quality of a wine does not come from the vinification or the aging process, but from the quality of the grapes. The vinification is just a transformation process that does not improve the quality of the wine. Our strength lies in being the owners of our lands and growing our vineyard the best way possible, taking consideration of the climatic conditions. Our Wine are produced exclusively with our grapes.

Vineyard :

The plot for this cuve is exposed south-ouest side with a clay-limestone soil. We remove some leaves from the grapes to expose them directly to the sun, in order to increase the concentration of the grapes and limit the development of rot and achieve optimal maturity.

Harvest:

Mechanical harvest with sorting table on board and a second at the winery with an optical sorting table. With this high technology process we keep only the best grapes.

Vinification:

The vinification process is as simple as possible, in order to respect the grapes. We don't use sulfites before the end of Malolactique fermentation. We control the temperature so it sticks between 21 and 27°C with 2 pumping-over per day, to avoid over-extraction and keep the fruitiness of the grape.

Ageing :

20% in stainless steel tank and 80% in barrels during 14 months to give a light woody taste to the wine and a great personality.

Tasting:

Château Castaing has a great personality. The color is bright and the nose is lightly woody. The palate of the wine is round with black and red fruits aromas, lightly spicy and ripe tannins for an harmonious finish.

Availability:

0,75L Bottle
