

HARTFIELD & CO.

A BOURBON COUNTY DISTILLERY

white whiskey

- 62% Corn, 28% Rye, 10% Malted Barley
- Corn and Rye come from Kentucky
- Best served neat, but designed to be used in a cocktail environment

White Whiskey is a tough category. Most are harsh and sharp, difficult to drink. We pride ourselves on making some of the best white whiskey around. Bottled at 100 proof.

Grassy notes combine with the sweetness from the corn. Slight hints of the smoke from the malted barley arrive late. Once the heat from the alcohol dissipates, the flavor profile is the evidence that our distillation techniques are heading us in the right direction.
