

Carson Scott

2021 California Cabernet Sauvignon:

A Symphony of Elegance and Oak Aging

Nestled in California's esteemed wine country, Carson Scott unveils its latest masterpiece - the 2021 California Cabernet Sauvignon. This limited-edition release, aged for an impressive 24 months in oak barrels, captures the essence of the region's terroir and showcases the winery's commitment to excellence.

The wine pours a deep garnet, offering a rich bouquet of blackberry, plum, and subtle hints of vanilla and cedar. The extended oak aging process has crafted a luxurious mouthfeel, with velvety tannins providing a balanced structure. On the palate, ripe black cherries and cassis dominate, complemented by layers of spice and a touch of tobacco, resulting in a wine that beautifully marries fruit expression with oak influence.

Carson Scott's meticulous winemaking process, from grape selection to extended oak aging, is evident in every sip. This Cabernet Sauvignon is a versatile companion, pairing seamlessly with dishes ranging from succulent prime rib to grilled lamb chops or a hearty mushroom risotto. As a true reflection of craftsmanship and tradition, the 2021 California Cabernet Sauvignon from Carson Scott promises an unforgettable exploration of California's finest vineyards.
