

## **Carson Scott**

### **2023 California Chardonnay:**

#### **A Symphony of California Terroir**

The 2023 Carson Scott Chardonnay is a beautifully balanced wine, with fruit sourced from the renowned regions of Clarksburg and Lodi, both known for producing exceptional white wines. These regions' cooler nights and warm days allow the Chardonnay grapes to fully develop their flavors, resulting in a vibrant and fruit-forward wine. Carson Scott has crafted a Chardonnay that celebrates the natural character of the fruit, offering a refreshing, easy-drinking profile.

On the palate, this Chardonnay showcases an abundance of apple and baked pear flavors, making it both rich and approachable. The baked pear provides a subtle warmth and complexity, while the crispness of fresh apples keeps the wine lively. These fruit notes are perfectly integrated, allowing each sip to reveal a harmonious blend of sweetness and tartness, making it a versatile pairing for a variety of dishes, from seafood to light pastas.

The light oak influence adds a delicate layer of depth to the wine without overpowering its fruit-driven profile. Subtle hints of vanilla and a touch of creaminess from the oak aging enhance the overall texture, providing a smooth mouthfeel. This restrained use of oak allows the fresh, fruity characteristics to shine through while adding just enough complexity to make the 2023 Carson Scott Chardonnay an elegant and well-rounded choice for Chardonnay lovers.
