## TASTING PROFILE

Complex character through fruity and floral, fresh aromas. A touch of mediterranean rosemary, lavender, chamomile, and coriander seeds, harmonised by nutmeg flower, liquorice and angelica roots. Finally, orange, lemon, grapefruit and cranberries lends the gin its fruity profile. The butterfly pea flower provides a delicate-nutty flavor and our gin's classic blue color. Together with tonic or any acidic based mixer our gin undergoes a color transformation, from its royal deep blue hue to a gentle pink.
