Palomino 'Forlong Blanco' 2024

“The white 2024 Blanco was produced with Palomino grapes from barajuela soils. It **fermented in stainless steel and was bottled unoaked**. It has good ripeness and 12.5% alcohol and four grams of acidity. It has not yet developed much aromatic complexity, and in my experience, these wines benefit from at least one year in bottle. **This is agile and balanced, with a fluid palate.** It was a year with a lot more rain, a mild summer and a late and quiet harvest. We tasted it next to the 2023, which had accumulated drought, and you notice the bitterness and concentration of the year.”
