

WORLD GIN AWARDS 2019
BEST SIGNATURE BOTANICAL GIN

GIN EVA LA CANONETA

In ancient Greek mythology, the Muses were the inspirational goddesses of literature, science, and the arts—divine sources of knowledge and creativity. But Muses can be found

everywhere, even in nature. For the creation of this gin, our muse was the most emblematic citrus fruit of the Sóller Valley: the Canoneta orange. The result is a full-bodied gin, vibrant with citrus essence.
