BOX CONTENTS: 4x250 ml (with carrying handles)

From the Alps to the Mediterranean Sea, SFERA is a collaboration with small certified-organic growers to bottle and can wine in small batches from all over Italy. A singular vineyard on a hill, a few rows of mountain vines, some limestone soils near the sea: we're searching for unique terroirs from farmers working the land respectfully.

Wines to drink, wines with Terroir!

Frecciarossa is an historic cellar in Oltrepo' Pavese area. The first wine here was produced in 1972. This area is one of the hidden jewels of the Italian Terroirs.

Their wines are Organic and represent an authentic expression of the area.

Sfera Rosato Can from Frecciarossa shows delicate little strawberries and cherries in the nose; it's juicy and refreshing, gentle in the palate with a light fruit finish. Simple but characterful rosè wine, for a sunset in front of a beach or on the house porch.
