

RECTIFIED BOURBON

Rectified Bourbon is a high quality bourbon at an approachable price point, designed for the bartender and priced for the consumer.

Our bourbon is 75% Corn, 21% Rye, 4% Barley, aged 2 years, 90 proof, in a 750ml bottle that fits in the speed well, fits speed pours, and opens easily. Having a higher rye content lends this bourbon to a wider range of drinkers and offers versatility across cocktails, while being satisfyingly smooth on its own.

Our name is a tribute to bringing honesty and integrity to the whiskey world. "Rectified" is an industry term referring to the production process. While most brands are in fact rectified; in addition to selling fine whiskey, the vast majority sell an elaborately misleading marketing story at a premium price.

We source barrels of bourbon, treat them with our proprietary carbon treatment process, and blend for consistency.

Its good. Its bourbon. Its Rectified in Vermont.

PRICING

	Bottle	Case*
1 Case	\$28.00	\$336.00
2 Cases.....	\$26.60	\$320.00
