

DATA SHEET

AZTECAN was born two decades ago, researching the best Mexican drinks, with homemade recipes from our grandparents and villages. Together with a team of sommeliers, chefs and bartenders, we created a delicious handmade cream liqueur COCONUT flavour that combines milk, coconut and cane alcohol, you will taste on the palate a delicious creamy texture, with small pieces of coconut with sweet notes, combined with a soft touch of alcohol that makes it an exotic and exquisite, tropical, fresh flavour, that with ice you will love.
