Established in 1866, the Takeda Shuzo is one of the highly regarded brewers in all of Japan with **3 Trophy Awards from IWC** (top award in the entire sake category).

The secret lies in the ancient rice cultivation techniques practiced by its master rice growers. Select sake rice varieties are spaced out methodically to allow for healthy, flavorful, and robust rice grains.

Extra pure and soft water from its well and the attention to details by its 9th and 10th generation owner/brewer puts the finishing touches.

Enjoy any of these bottles with the confidence that you’re drinking some of the best sake in the world.

Key Selling Points:

- This sake excels on the category, as proof it is the recipient of multiple awards including a few **IWC Trophies (2013 / 2015 / 2019)**
- This one is quite versatile and memorable, ideal for a variety of dishes ranging from Fried Chicken to Mexican street food and mole due to its muscular delivery.

Tasting Notes:

- Powerful and multidimensional with a bright platinum shine. Aromas are led by fresh cut green apple and lime zest balanced with a kiss of lychee nut with a hint of caramel. The mouthfeel carries both weight and precision with a silky texture and a long-lasting finish.
