Sandy loam with a
predominance of granite

Ageing
15% in French oak barrels
85% in stainless steel vats

Production
10.200 bottles

Alcohol
12,5%

SILENTE

VILA d'ESPASANDE

Village Wine

This wine is the result of a group of small plots of land in the village of Espasantes, where the winery is located.

Each plot is sourced separately and the vinification process is different in order to obtain the maximum potential from each one of them. The percentage of whole grapes varies between 25% and 100%.

The grapes were harvested in the second half of September. Manual harvest with cluster selection both in the vineyard and at the winery.

Native yeast varieties and spontaneous malolactic fermentation. One part was aged in stainless steel vats and the other in French oak barrels.

This is a wine of synergies, where the merging of different plots of land result in a wine without artifice and as sincere as the soil from which it comes from.
